Assessment Note

A.3(a) – the plans show the walls, roof and drainage would match the existing external materials of the dwelling. It should be noted that in order to be lawful, the windows must also be of a similar appearance to those of the existing dwellinghouse.

It should be noted that Section 55 of the Town and Country Planning Act (1990) defines development as carrying out of building, engineering, mining or other operations in, on, over or under land, or the making of any material change in the use of any buildings or other land.

There appears to be some excavation proposed in order to facilitate the proposed extension.

The developer should note that where any change in land levels particularly of 0.3m or greater is taking place, this would be considered an engineering operation requiring planning consent.

Conclusion

The proposed development complies with **Schedule 2, Part 1, Class A of THE TOWN AND COUNTRY PLANNING (GENERAL PERMITTED DEVELOPMENT) (ENGLAND) ORDER 2015, AS AMENDED** and the **LAWFUL DEVELOPMENT CERTIFICATE** is **GRANTED**
