Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	<p>I object to the planning application for numerous reasons.</p> <p>The development goes against the purpose of the green belt in that it would encroach into the countryside and affect the character of our village. The existing local infrastructure cannot cope with the increase in population. There would be a significant increase in traffic congestion resulting in safety concerns for pedestrians and motorists. There is inadequate public transport provision. Our community lacks sufficient healthcare facilities, schools and other public services to support new homes. Drainage and flooding is also a concern and I believe the development would exacerbate flooding in the area. The size of the development would be oppressive and visually dominant from neighbouring properties. There would be unacceptable levels of noise and light pollution during building and after. There would be a loss of biodiversity by the destruction of valuable wildlife habitats as well as foliage and trees.</p>
