Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	Another ridiculous plan for an area which is productive farm land and contrary to green belt protection. Local facilities are already completely overstretched, traffic is a nightmare, local schools are at capacity, medical services are over stretched (it is problematic to even get an appointment), we have a regional water shortage , sewerage companies are failing to properly handle demands of waste water, public transport is virtually non existent. There are no plus points in this application.

Kind regards
