

20260207

I am writing to oppose the above planning application.

Whilst I understand the need for housing, I do not agree with more building on the greenbelt.

I live in Istead Rise and am already watching flats being built. This building has not taken into account that the occupants will have vehicles and only the community and doctors car parks to park them in.

The doctors surgery is already a nightmare to try and get an appointment without more people requiring there services. Wrotham already floods when it rains and this will only worsen as the fields are concreted over.

Also where is the wildlife supposed to go, they have a right to live.

I moved here to be in the countryside, but the way this council is building there will be no countryside left. Where will our food be grown when all the agricultural land is gone.

Utilise existing buildings, like the top of the shops in Gravesend. Build on brown belt land, we have areas of that, that could be used.

STOP going for the easy option, all actions have consequences!!!!!!!!!!

Yours
