## Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments: The Committee would be most unwise to approve this application, because of the massive cost of improving the local infrastructure. The local road network struggles to cope with existing traffic, and if this proposal is approved it would lead to total mayhem at peak hours. The roads are already dangerous and the last thing we need is a significant increase in local traffic, particularly around our schools.

We try to use public transport wherever we can. This has not been helped by the relatively recent withdrawal of evening bus services. Will these be reinstated if the proposal goes ahead?

In addition it is not made clear how the increased demand on local services such as GP surgeries and other NHS facilities would be addressed.

Kind regards
