Notes

This drawing has been produced by electronic means. Should the scale measurements be taken by means other than electronic (e.g. from a printed copy), the following must be taken into consideration before scaling is undertaken:

1. Ensure that the copy has been printed/plotted on the stated sheet size with the plotting/printing scale set to a correct ration .
2. Ensure that an adequate allowance (dependant on the stated scale) is made for the inevitable distortions introduced by plotting/printing and copying processes.
3. Marked critical dimensions are to be regarded as having precedence over the scaled values.
