

Environmental Impact Assessment

196 & 197 Parrock Street

Gravesend

DA12 1EW

The development does not impose any significant environmental impact on any of the following:

- Habitat: there are no trees shrubs or wildlife on the site;
- Soil contamination: there will be no excavation outside of the existing building footprint, except to reinstate the basement window to the front;
- Drainage and rainwater runoff: no change will result from the development;
- Traffic: there will be no new access to the highway, no additional parking or significant change in frequency of use.
