Reasons for comment:

Comments:	<ol style="list-style-type: none"><li>1. This is Green belt with lots of rare, protected and special species of animal, and flora that should be protected and the loss of habitat is unacceptable.</li><li>2. Tjis contradicts the current Government National Planning Policy Framework.- Paragraph 116 and will create unacceptable and additional impact on highway safety. I use this road daily and the traffic is already at breaking pint on the A227.</li><li>3. There is NO Grey belt land adjacent or within the boundaries of this proposed site.</li><li>4. it will create unacceptable impact on the adjacent land and water run off especially the ancient woodland owned by the adjacent school.</li><li>5. Air and light pollution from the additional traffic will further add to poor air quality for local people which is already at higher than most rural areas.</li><li>6.there is not enough local services or facilities and adding another circa 200-300 persons in the area will further overload the demand on doctors, dentists, public transport, schools and most of all traffic on the roads.</li></ol>
