I have the following comments on planning application number 20260207 :

I OBJECT most strongly to this proposed development.

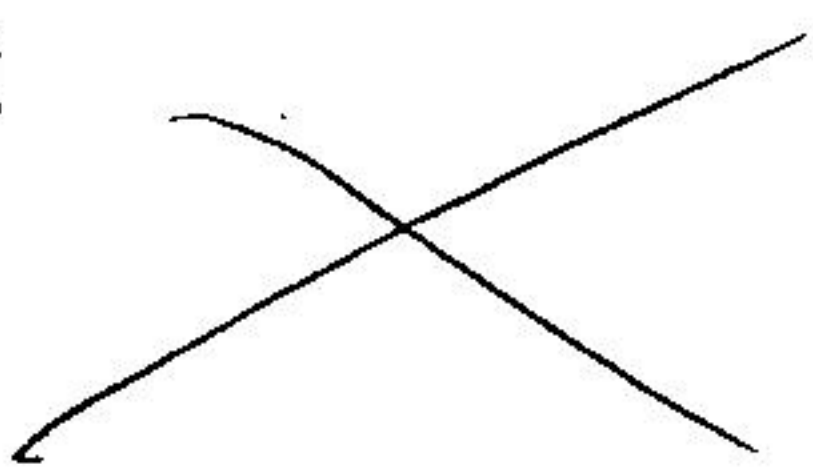

The cumulative effect of this development along with the SIX others is to effectively INCREASE Meopham by over 2,000 households. Please bear in mind that the whole of Gravesham current plan, for the next 16 years, for just 650 households PER ANNAM.

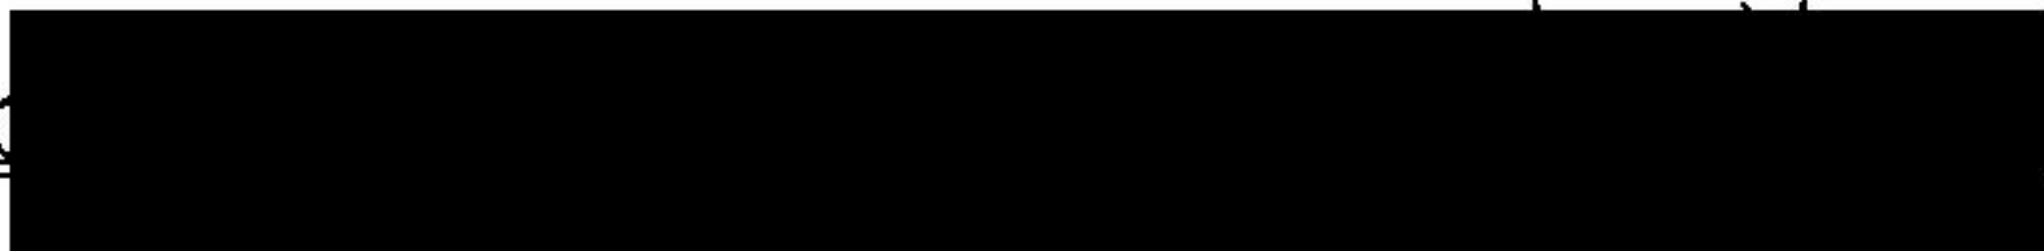

Meophams current infrastructure, at best, manages - fails frequently : for example -
A] flooding on the A227 around the junction with Norwood Lane

B] the Meopham Medical Centre is operating at maximum capacity - unable to expand

I have the following comments on planning application number 20260207 continued: My other  proposed development  is its effect on traffic on the local/side roads and the principal/A227 road. 725 new homes must equate to over 900 ADDITIONAL cars Plus the trips associated with the school. Cumulatively this must be 2000 extra vehicle movements PER DAY !!
