I have the following comments on planning application number 20260207 :

Infrastructure: Meopham GP practice the schools are at full capacity

Traffic would increase to approx. 1,450 extra cars. This is without

the addition of local traffic. We already suffer problems with

traffic through the village if the M25 or A2 have accidents.

Pollution would increase with the extra traffic also development
would cause light pollution.

Flooding would become another concern as we have already suffered

flooding from Norwood Lane a ~~low~~ Weatham Road.

Our train Station have only a bridge but no lift so therefore

a person who is disabled or someone with a pram will find this difficult

My concern is regarding our utilities for this village

Greenbelt is meant to safeguard the countryside, protect natural

habitat, prevent urban sprawl by keeping land permanently open,

preventing the merging of towns and villages.
