I have the following comments on planning application number 20260207 :
This & other fields are & will continue to be needed to feed our already growing population, especially now as food security is endangered by climate change & aggression in some other countries.
Traffic already a problem in this area, more houses mean more people needing to already overburdened facilities ie doctors, schools etc.
This area needs to continue as a green lung for human health & insect & animal populations especially pollinators. Brown field sites exist in the Gravesend area; use them first.
Do not allow this ^{still} disposing of this ~~inval~~ Area!
