Project Datum

All levels and coordinates are related to the Ordnance Survey national grid by means of GPS. One survey control point has been fixed using GPS and then the survey orientated to additional GPS points. No scale factor has been applied therefore only the fixed GPS point is a true Ordnance Survey position.

All building measurements are taken to existing finishes or faces which are constant and represent an average face or wall line. All levels and dimensions are quoted in metres.
All window head and window cill levels are internal measurements.
Ceiling height measurements are taken to a point which best represents the general room height.
