Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	Whilst any improvement to the land in question would be welcome, as currently it is reqlently used as a site to dump rubbish on, I have two main concerns: 1. That none of the works, either during construction or on completion will effect the vehicle access to my garage. 2. I have grave cconcerns regarding access to the premises for the fire brigade in case of an emergency. The access via Brook road involves a very sharp turn, (approximately 75 degrees) which is dificult by car, considering the number of cars parked at the top of Brook road, and would be extremely difficult for a vehicle the size of a fire appliance. On the occassins that we have had fires in the alleys the brigade have been unable to get very close to the scene, on one occassion they borrowed my garden hose to deal with the situation.

Kind regards
