

20220226 Former Northfleet Cement Works The Shore Northfleet

Environment Agency 11 April 2022

Thank you for consulting us on the above planning application.

We have assessed this application as having a low environmental risk. We therefore have no comments to make.

Non planning consents

Although we have no comments on this planning application, the applicant may be required to apply for other consents directly from us. The term 'consent' covers consents, permissions or licences for different activities (such as water abstraction or discharging to a stream), and we have a regulatory role in issuing and monitoring them.

The applicant should contact 03708 506 506 or consult our website (<https://www.gov.uk/guidance/check-if-you-need-an-environmental-permit>) to establish whether a consent will be required.

Drainage may be restricted in a Source Protection Zone or over an aquifer where groundwater is at shallow depths. Foul drainage should be discharged to mains sewers where possible. Developers should check <https://www.gov.uk/government/publications/drainage-and-waste-disposal-approved-document-h> for Binding Rules information for small scale non mains discharges.

If you feel we should assess this planning application in more detail due to local issues please email KSLPLANNING@environment-agency.gov.uk.
