| Stance:         | Customer objects to the Planning Application |

Reasons for comment:

Comments: I strongly object to this application. This is inappropriate development and harmful to the Green Belt and should not be approved.

White Post Lane is not a suitable location for a travellers site. Many mature trees have been hacked down along the lane to facilitate lorry access to these unauthorised sites. White Post Lane is a narrow single lane with few passing places, and the lane has been completely closed off by the travellers on numerous occasions so that the flatbed transporters can deliver their mobile homes. In addition, large lorries are delivering hard-core, asphalt, diggers and other land moving equipment. If there were an emergency, and an ambulance or fire crew were needed in Sole Street it could have devastating consequences.

White Post Lane has always been used by walkers, horse riders and cyclists but it now feels unsafe to do these things as large commercial vehicles are driving to and from the site, often at speed. The dogs at the site are howling and barking during the day and night which is distressing to hear. The unauthorised work carried out on this site has severely damaged the environment, and impacted on the wildlife. The occupants have shown no respect for the environment, the local community or indeed any aspects of the planning process.

Kind regards
