Officer Assessment

The purpose of this assessment is to ascertain whether the installation of a vehicular access is lawful and therefore Class B of Part 2 to Schedule 2 of the GPDO (2015) (as amended) is applicable as is Class F of Part 1 Schedule 2 of the GPDO (2015) (as amended).

Class B of Part 2 to Schedule 2 of the General permitted Development Order states that development is permitted providing:

B. The formation, laying out and construction of a means of access to a highway which is not a trunk road or a classified road, where that access is required in connection with development permitted by any Class in this Schedule (other than by Class A of this Part).

Truro Road, is not a Trunk Road nor a Classified Road and therefore satisfies Class B of Part 2 to Schedule 2 of the General permitted Development Order.

The above also states:

where that access is required in connection with development permitted by any Class in this Schedule (other than by Class A of this Part).

Therefore the submission will also be assessed Class F of the Schedule 2 Part 1 of the GPDO.

Officer Analysis

Schedule 2, Part 1, Class F.2(b) of the Town and Country (General Permitted Development) (England) Order 2015 requires the hard surface to be made of porous materials, or provision is made to direct run-off water from the hard surface to a permeable or porous area or surface within the curtilage of the dwellinghouse.

The applicant has stated that the hard surface is composed of porous materials and that there is drainage already installed, although it has not been confirmed where this drainage is situated and whether it is sufficient, however given the surface is porous then this would in isolation be acceptable.

Conclusion

The proposed development complies with Schedule 2, Part 1, Class F and Class B of Part 2 to Schedule 2 of the Town and Country Planning (General Permitted Development) (England) Order 2015, as amended, and the Lawful Development Certificate is granted.
