Comments:

I have lived in my property for over 12 years with my wife and two children! We have a very happy home life and a strong unit of neighbours! I am able to allow my young children to walk and cycle freely around the Drove way and I know they are safe. A new development and road will put my children at risk. I would not be happy sending them out to play/cycle if there is an influx of vehicles. There is already a strain on the doctors surgery and dentists so a new development will put even more strain on them. I can barely get a in appointment as it is. This will make it nigh on impossible. The Drove way is home to very elderly people and dog walkers again I will say an influx of vehicles will put them at risk! My property is valued quite high and we are not looking to move knowing this is our forever home! It's very quiet and all neighbours get on! This will ruin a great community and lower the value of all our homes. I have worked very hard for years to pay my mortgage and improve my property for it to be our forever home but this new development and road will destroy our dream! I work very long hours and do regular nights! I am able to sleep soundly during the day due to how quiet the road is! Again this will impact on me as I will no longer be able to sleep with building work more cars more people! If this development goes ahead You will destroy a very happy and content community! I sincerely hope you read this and take on board what I have said! There are other developments already planned at other areas of istead rise so why do we need more! This application has angered me so much I am so disappointed that this has even been entertained!

Kind regards
