Reasons for comment:

| | |
|-----------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Comments: | <p>I fully object to the erection of 120 dwellings along Longfield Road Meopham as this development fundamentally undermines the purposes of Green Belt Land according to the NPPF.</p> <p>This development would not safeguard the prevention of Urban Sprawl or safeguard the beauty of our local area and habitat that relies on and resides in the countryside. This development represents an inappropriate encroachment into the countryside.</p> <p>This development would cause a major loss of character and special setting within our historic village and would fundamentally weaken the wider green belt's integrity.</p> <p>There is insufficient infrastructure and services to serve the mass influx of population this development brings and therefore would cause a negative impact on traffic congestion as there is a lack of public transport provision and pose a risk to highways and pedestrian safety.</p> <p>The community lacks social infrastructure capacity to accommodate the influx of population, such as medical facilities, schools and other public services to support new homes.</p> <p>Also, there is not the road capacity to accommodate the disruption caused by the construction vehicles whilst developing these sites.</p> |
