Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	The local community does not have the infrastructure to accommodate this size, or any size for that matter, of development. I grew up in Meopham and lived there for [REDACTED] years, and over that time the changes have already been drastic. The roads are awful, the A227 Wrotham Road has new roadworks on it every week and queues going past schools etc in the mornings and evenings are already unbearable. The schools in Meopham and surrounding areas both primary and secondary are packed already with no room left in them. All local doctors are already packed with waiting lists to gain access to the NHS. The parking around all local shops are a big enough problem already without added people from these developments. By putting this development in, and trying to give everyone equal opportunity, the standards for everyone will fall. Doctors appointments will be slower, children won't get places in schools they want to. It is clear the development has no idea about the local area and community and is looking to destroy it.

Kind regards
