Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments: I write to strongly object to the above planning proposal.

I was under the impression that Greenbelt policy aims to safeguard the countryside by preventing urban sprawl, keeping land permanently open to protect the vast natural habitats and ancient ecosystems and to preserve the character of our villages by preventing the merging of towns and villages. This proposal would only serve to destroy all of that. In particular the proposed apartments up to 3 storeys high! This is a village not a city.

The infrastructure that serves Meopham and Istead Rise is already at full capacity, this is without the extra population that this new development would bring. How can this even be considered sensible. The vast increase in traffic would only cause more noise and air pollution in addition to overloading an already extremely busy Wrotham Road. The existing open land acts as flood mitigation by reducing flooding, which is already a major issue on Norwood Lane and Wrotham Road and also acts as a Carbon Sump both of which will be destroyed if the proposed development is granted.

We do not need any more houses. What we need is to keep our green and pleasant land.

Green NOT Greed.

Kind regards
