Ref: 20240855

Dear Mr Brown

Thanks you for e-mailing the
plan for intended alterations to
68 Whitehill Road.

I have certain concerns regarding
the use of this property as a care
home. In Hollybush Road there
is a similar establishment and
unfortunately one of the residents
attacked and badly injured one
of the neighbours. Both the police
and local MP were helping to
investigate the incident but because
of the circumstances no arrest
could be made.

Presumably inspections for safety for both the residents and neighbourhood are undertaken on a regular basis.

Also the garage which is only a few feet away from [REDACTED] kitchen has been converted to be used as a meeting room or bike storage.

The Asbestos roof is covered with a fast-growing vine which over the years has turned into a mass of dead leaves and dried vegetation.

A gardener was asked to clear the roof of the vine but the job was refused as was deemed too dangerous because of the asbestos. Hopefully for the sake of the residents something will be done to minimise both the danger from asbestos and fire risk.

as a designated smoking area ~~is~~ beside it

Other neighbours are
concerned about possible problem;
with this planning application

away I am most directly
affected,

I would appreciate your
comments either by letter ~~or~~ or

copy kept on file in case further
action needed
