Please state why a Lawful Development Certificate should be granted

Moved in to 16 William street on the 26th February 2020, unknown to us the sash windows were rotten and over painted to the state that they couldn't be opened. Due to it being a covid pandemic we took it upon our selves to change them to more energy efficient Upvc sash windows that had the same look and style as the wooden originals.

We live in conservation area with three other houses, two of which have changed their windows to Upvc. Unknown to us we had to get planning permission before fitting in order to change them. We've had the windows in for over four years, within those four years we have received no objections to the design or materials used to change them from the original. We feel they made a great match and didn't change to character of the property.

It is an important principle of decision-making that the process is open and transparent.
