Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I wish to strongly object to the above proposals on the following grounds. 1. Given that the effects of the current war affecting the Middle East will very significantly impact the UK, the destruction of agricultural land is extremely foolish given that the provision of food security will be of utmost importance. 2. Destruction of the Green Belt is abhorrent. It was designated development-free for very good reasons and they are of great relevance. 3. Meopham will no longer be a village if this development occurs. To increase population on this scale will result in the formation of a town, incurring great loss of heritage and character. 4. There is no essential supporting infrastructure i.e water supply, shopping amenities, medical facilities, public transport, adequate road network. 5. As the UK population stabilises in number, the need for increased housing supply through the building of large-scale developments is a short-sighted, unnecessary objective.

Kind regards
