Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	<p>My primary concern is that the local road infrastructure is not capable of supporting such a large development. Our village relies on a single main road, which is already under significant strain, and any disruption to this road results in the smaller, single-track back roads becoming heavily congested. The addition of traffic from 100 new homes would place extreme pressure on these roads, creating serious safety and accessibility issues.</p> <p>Furthermore, the absence of public transport options in the area means that nearly all residents will rely on private cars, exacerbating traffic congestion. Even during the construction phase, the volume of vehicles and heavy machinery would create considerable disruption in an area that is simply not equipped to handle it. For these reasons, I strongly urge the council to reconsider this application, as the development would place an unsustainable burden on the local infrastructure and significantly impact the safety and quality of life for current residents.</p>
