Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	<p>I object to this planning application due to the fact that the land is High Grade(2) Agricultural land. This should be preserved as all costs as enviromentally and economically. There have been many calls, especially from the National Emergency briefing that had many scientific speakers commenting on how important it was that we should be making our country more sustainable and self sufficient. This is terribly important in these unpredictable times we are living in. The impact on the children, especially those attending the Helen Allison school, which is a specialised Autistic school, will be immense. Surely the safeguarding of the children should be a priority as the noise and disruption that would be caused from the groundworks and building would have a huge impact on the outside environment for the children.</p> <p>This plot of land is still Green Belt in the Local Plan and what is the point of a local plan if it means nothing and doesnt protect our Landscape.</p> <p>There are badgers living on this land, so there is an environmental issue and their setts shouldn't be distrupted.</p> <p>There will be a dangerous access off a busy road with added risk of parking for two school. As well as heavy vehicles going to the weigh bridge at Green Street Green.</p> <p>The speed limit is currently 50mph on this road.</p> <p>There will be a loss of rural landscape and views of character buildings, such as the Oast house.</p>
