Reasons for comment:	
Comments:	<p>Both the A227 Wrotham Road and Green Lane must be improved before any development can be considered. The junction of Wrotham Road, Longfield Road and Green Lane is already overused causing a dangerous situation. Too many heavy goods vehicles are using this road and access to the few shops we have, access to schools etc. is ludicrous and needs more crossing points, parking facilities. The last thing it needs is any increase in housing development using the existing poor driving conditions with a total disregard for pedestrians including school children</p> <p>Any development must also consider whether the area has adequate parking, shops, hospitals, doctors etc. all of which are struggling at this time. Any development is taking no account of the needs of the environment that exists, let alone a Green Belt development</p>

Kind regards
