Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I strongly object to the proposed development as the infrastructure of this village and surrounding areas cannot cope now at times so this can only worsen. The local doctors surgeries are full to capacity and this has been confirmed by the surgeries themselves. The roads are quite often at a standstill due to the amount of traffic and an extra potentially 1450 vehicles will make this even worse. The additional traffic will cause more pollution and the development itself will cause light pollution. There are numerous planned developments in the village and surrounding areas cannot so the impact if they are all completed will turn the village into a town. We need to preserve the character of our village. We must also consider the flood issues in the area which are becoming more apparent each year as the weather changes.

Kind regards
