Reasons for comment:	
Comments:	<p>This proposed development fundamentally undermines the purposes of the Green Belt, representing an inappropriate encroachment into the countryside and leading to increasing sprawl in our countryside areas. This development would result in the loss of important habitats for wildlife, removing mature trees and hedgerows that contribute to local biodiversity and significantly impacting the local character of Meopham.</p> <p>The development would cause a significant and demonstrable loss of amenity for neighbours, including overbearing Impact - 350 additional buildings would be oppressive and visually dominant from neighbouring properties. The size of the development would also create significant and unacceptable levels of noise, light, and air pollution during and after construction.</p> <p>Further, we as local residents feel that the development represents a threat to already overstretched local infrastructure, including a significant increase in traffic congestion, and pressure on already inadequate public transport provision.</p> <p>Concerns have also been raised that there is insufficient capacity in schools, healthcare facilities (e.g., GP surgeries), and other public services to support this large number of proposed new homes.</p>

Kind regards
