Reasons for comment:

Comments:	1. The main objection is one of privacy.To the north face the third floor has a large bedroom window with a Juliette balcony (full height door) .and a designated office space, whose window will no doubt be in use all day. The main bedroom of our property (south facing the proposed has an en-suite which will be totally overlooked by the 3rd and possibly the 2nd floor due to the slope of the land.The ground floor is shown with steps leading down from the back exits, accentuating how much of a slope there is at that point, and therefore the elevation to our property. 2. The maintenance of the Leylandii which is currently cut yearly by the Convent to keep it at the permissible height. Will the proposed dwellings occupants maintain them? Also the maintenance of the huge Norway Maple, half of which hangs in our garden, cutting out sunlight to half the garden. 3. The design of the dwellings from our view look like office blocks and are in no way in keeping with the surrounding dwellings. 4. One of the drawings shows instead of the Juliette balcony it is a balcony to sit on. Not acceptable!
