## Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	<p>I object to this development on the grounds that over the construction period there will be hundreds of HGV traffic movements often soiling the roads, the local roads are often narrow in places and poorly road marked, cats eyes not effective, no street lighting at all. The increased construction traffic will present an increased danger on the narrow roads approaching the site</p> <p>The surrounding road infrastructure is also not capable of handling the increased traffic on completion of the development.</p> <p>further local services including schools and NHS provided services such as GP surgeries will be negatively affected by the increase in the number of people living in the local community ...typically 400 more people !!</p> <p>the increase in both construction traffic and new residential traffic will also have a negative impact on the environment</p>

Kind regards
