Reasons for comment:

Comments:	<p>Whilst I understand the need for additional housing it is my view that Kent in general and this borough in particular is being overly burdened with newbuilds - the infrastructure is simply not up to supporting this.</p> <p>As a local resident I know first the hand the degradation of public transport, specifically the local bus service, which frankly is virtually non existent. I would contend that this development will result in more cars on the road (school runs etc) on what is already a heavily loaded road (A227) with more congestion and pollution.</p> <p>Almost all service and utility infrastructure is stretched to the limit with frequent localised flooding and power outages combined with the additional burden on schools, Doctors etc make this development without additional infrastructure untenable.</p> <p>Bordering an Area of Outstanding Natural Beauty, connecting as it will existing villages (something not permitted in my understanding of planning law) and having no history of being either a Grey or Brown field site this has the potential to further negatively impact what remains of the wild life, flora and fauna in the area.</p> <p>I strongly urge this development be reconsidered and rejected</p>
