Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	I strongly object to this application for the following reasons. 1. The scale and intensity of the proposed use will reduce the openness of greenbelt. 2. The physical presence of caravans, structures and other structures would materially change the character of the land. 3. We are paying through our noses for the net zero, it doesn't make sense to destroy so many trees in the green belt. 4. Introducing a permanent residential use would result in encroachment and an urbanising effect, contrary to the purpose of green belt designation. 5. The Heron Hill site utilisation is currently less than fifty percent 6. Gravesham council can not practice a two tier policy of refusing individuals to build houses on the basis that the area has been designated as greenbelt and then allowing planning permission for a caravan campsite resulting in total annihilation of greenbelt land. 7. If the permission is granted then the increase in traffic will destroy the roads in this area, which are currently not adopted by the council. 8. Gravesham council should refuse this planning application and save, maintain this precious greenbelt 9. Gravesham Council has the obligation to restore the trees on this site that have been totally decimated without any accountability. 10. If planning permission is granted in this case then the individuals who's application for a dwelling has been refused in this area on the basis of greenbelt designation, should take Gravesham council to court for practicing a two tier
