Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments: I strongly object to this application and I also object to being only able to comment on this application if I use a computer. I have had to ask someone to help me take part in this consultation.

I object as:

Schools are hard to get into and the roads are already dangerous, how will the dangerous parking be sorted out whilst they build the new school?

Southern Water have already said that they cannot cope and Norwood Lane already has a flooding problem, which has been happening for years. The drains get blocked and the road gets flooded.

Parking is a problem everywhere, I cannot park at the parade to get a bit of shopping, more people will make this worse and I will become more isolated and have to travel further to the shops.

The Roads are jammed - the A227 is a nightmare now, especially if the A2 is blocked. I cannot get off my drive sometimes due to the traffic coming through from Sole Street and down past Camer Park.

When I went to the GP in Meopham, they said that they cannot cope and have objected to the planning application too. It is hard enough to get an appointment

as it is.

We need our green fields and this land is Green Belt protecting the countryside and cleaning the air.

Kind regards
