Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	I wish to strongly object to this development in Norwood Lane. 1-These proposed buildings will be built on valuable active high grade green belt land, it definitely does not meet the accepted definition of 'Greybelt land' 2-Meopham and Istead Rise GP Surgeries are both at full capacity as documented by letters from both practices 3-The UK's Greenbelt policy aims to prevent urban sprawl by keeping land permanently open, preventing the merging of towns and villages so preserving the character of villages such as Meopham and Sole street 4- Traffic in the Meopham area is already horrendous and an estimated extra 1,450 cars from this development would cause permanent gridlock along the A227 and narrow country lanes. This would also increase the air pollution in the area. 5- Public transport in the area is very poor. Buses are very irregular and cannot be relied upon. The train station has a bridge with no lift which is detrimental to the disabled 6- The area at the bottom of Norwood Lane and Wrotham Road is well known for flooding which would only worsen with the proposed buildings as open fields capture water which reduces flooding. Also there is already an inadequate water supply leading to hose pipe bans in this most summers
-----------	---

Kind regards
