Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	<p>The site would have unacceptable visual impact on the nearby conservation area and would represent a significant loss of farmland, historically utilised for food production. The development of 350 houses will cause an unacceptable increase in traffic volume including delivery and service vehicles of potentially 700+ cars, which would need to access the already congested A227 opposite a very busy shopping parade, the primary school and near the junction with Green Lane. Such an increase in traffic in that particular area will inevitably increase the danger of vehicle accidents and danger to pedestrians, particularly school children walking to and from Meopham Primary and Secondary Schools, using the shops opposite and crossing constant busy roads.</p> <p>A development of such size will disproportionately increase the size of the local population and corresponding needs for the already overstretched services such as GP, NHS, public transport and emergency services. This is especially so if the other proposed developments in the area are also considered.</p> <p>I strongly object to this development which I consider inappropriate in terms of the size, location, the impact it will inevitably have on every aspect of the local area and the quality of life of the local residents and wildlife.</p>
