| Stance: | Customer objects to the Planning Application |
| Reasons for comment: | |
| Comments: | <p>I object to this planning application .</p> <p>The use of this prime agricultural land for building is unnecessary . The land is farmed and provides food . There are plenty of brown field sites in Gravesend which need to be utilised .</p> <p>This field is a haven for wildlife such as birds of prey, bats , badgers and rodents . Any development would destroy this natural habitat .</p> <p>The highways can not accommodate the extra traffic which will be generated by at least an extra 300 vehicles . The development is surrounded by country lanes which are not suitable for this huge amount of extra traffic . The roads are clogged each morning and evening as people use Sole Street as a rat run from the A2.</p> <p>The main A227 is very busy and constantly needing repairs due to the amount of traffic . The road is dangerous especially in the areas where it services three local schools .</p> <p>There is not sufficient water to service the current population and hose pipe bans are still in place . Where will the extra water come from to service the extra population ?</p> <p>All three applications in the area will totally transform the village . The infrastructure simply will not cope with such an huge influx of population . Our Dr , schools and even local hospitals are already at breaking point .</p> <p>This application is not suitable</p> |

Kind regards
