Reasons for comment:

Comments:	<p>Any additional houses of the kind of quantity mentioned here will be detrimental to this area for so many reasons and it seems so unnecessary when there are sites far more suitable not too far away that if used to their potential would not destroy our very much needed Greenbelt. The main reasons being as followed:-</p> <ul style="list-style-type: none">- access to this development appears to be very dangerous as it will be directly on to a narrow country lane with very bad visibility. We really do not need anymore unnecessary accidents, or even worse - deaths!!- The Lower Thames Crossing additional traffic must also be considered both from a safety aspect and the practicalities - the roads that will need to be used will not be able to cope- this is farmland. It is essential that we are still able to contribute to food production- the infrastructure is already struggling - additional people will put too much strain on things such as hospitals, GPs, dentists, schools, transport, trains, shops ... and so the list can go on!- I chose to live in Meopham as it was a Village and all the things that can be associated with such an area. Developments such as this, along with the many other developments, will surely be creating yet another town that will not be able to cope!
-----------	---

Kind regards
