Reasons for comment:

Comments:	<p>This is greenbelt land that has not been released from the Greenbelt Boundary. 150 houses with potentially 300 cars will cause dangerous access for cars onto a busy rural lane which has pinch points where large vehicles are unable to pass. The A227 road is already a very congested road without these potentially extra cars using it and if an incident occurs such as an accident of which there have been many over recent years, and roadworks, the local lanes become congested to the point of standstill. This will also cause an increase in pollution in the area. Current public transport is very poor with commuters already standing on peak times trains from Meopham and Sole Street railway stations, also the current bus service is very limited and unreliable.</p> <p>There would also be additional strain on an already GP and NHS Services. This land is high grade farmland which contributes to our food production Gravesham Borough Council need to reject this development and prioritise brownfield regeneration instead.</p>
