Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	<p>This is greenbelt land that has not been released from the Greenbelt boundary. 120 houses with potentially 240 cars also delivery and service vehicles will make access very dangerous as Longfield road as it is extremely narrow with residents' cars parked each side leading to it becoming highly congested. Heavy vehicles are constantly using this road.</p> <p>This development will negatively impact the wellbeing of vulnerable children at The Helen Allison School. An SEN School.</p> <p>The A227 road is already a very congested road without these extra potential cars using it and if an incident occurs such as an accident of which there have been many over recent years and roadworks, the local lanes become congested to the point of standstill. This will also cause an increase in pollution which will be detrimental to the children of both schools in the vicinity.</p> <p>Current public transport is very poor with commuters already standing on peak time trains from Meopham and Sole Street railway stations. Also the current bus service is very limited and unreliable.</p> <p>there would also be an additional strain on an already overstretched GP and NHS Services.</p> <p>This land is high grade farmland which contributes to our food production. Gravesham Borough Council need to reject this development and prioritise brownfield regeneration instead.</p>
-----------	--

Kind regards
