Reasons for comment:

Comments:	<p>1) This is Metropolitan Green Belt - it exists for a reason and has successfully prevented the urban sprawl from London for many years. This application is not only detrimental to the rural environment in Meopham, it will, if approved lead to similar attempts to develop Green Belt land throughout this area.</p> <p>2) 120 homes will seriously strain the village services. The bus service is a skeleton service that does not run in the evening or on Sundays so every household will need one or more cars. There is just one doctors surgery in Meopham, just one local primary school, and one local secondary school and the school buses to the Gravesend Grammar schools are full.</p> <p>3) This is urbanisation of a rural village that will change its character forever, not the gradual addition of new homes into the village from utilising brownfield sites (such as the former Meopham Police Station).</p> <p>4) There is the loss of green fields, both as a visual amenity to humans and to the wildlife that currently inhabits the area.</p> <p>5) Longfield Road is already really congested at school times with cars parked all along the road next to the fields to be built on.</p> <p>6) The extra traffic will slow and congest the A227 which is the only main North/South route out of the village - this road is already congested whenever there are road works that involve traffic lights.</p> <p>7) The Meopham Parade of shops is already an accident blackspot with the current heavy use.</p>
-----------	---

8) The development is right next to Helen Allison a special school for autistic children who will be especially damaged by the construction noise and then the ongoing general increase in noise from having a large housing estate next to the school.

Kind regards
