Comments Details

Commenter Type: Member of the Public

Stance: Customer objects to the Planning Application

Reasons for comment:

Comments: Although this is a much-needed facility on the A2, it is not appropriate that any development should take place in this area until the A226 at Galley Hill is repaired and reopened. The traffic diversions are already causing unacceptable congestion in the immediate area and excessive traffic volumes on the A2, and it is not appropriate that any major development that would generate additional construction traffic should be permitted until the A226 at Galley Hill is repaired and the road reopened.

Kind regards
