Comments Details

Commenter Type:	Consultee
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments: I am writing to strongly object to the application for the demolition [REDACTED]
This property is not just a building to us, [REDACTED]
[REDACTED]
in 2005. Over these years, we have built a stable life here, and uprooting our family would have serious consequences.

We are a working-class family and cannot afford to rent elsewhere at the current market rates. [REDACTED], has kindly provided us with a rent that allows us to sustain our living situation. Finding another property within our budget, particularly one in this area, doesn't seem possible.

The location of our home is crucial to our household's work, and relocation would disrupt our livelihoods. Unless there is an alternative arrangement that offers similar space and affordability, we are left with no realistic options. I urge the council to consider the severe impact that demolishing [REDACTED] would have on us and if there's alternative solutions that protect residents like us who rely on stable, affordable housing.

Thank you for considering our objection.

Kind regards
