Reasons for comment:

Comments: I don't believe that Kedbull should be expanded any more than it already has, with the flood lights shining directly into the houses on the other side of the field to us, and with the public gaining access to, essentially, our back gardens, I do not think it is safe, nor fair, for flood lights to be extended to the backs of our gardens on Nelson Road, and for the lights to potentially effect wildlife, including birds who have a nest on the big Eucalyptus tree, and the expansion to effect the hedgehogs that definitely live in the field that has been left bare. The sound and light pollution from what Kedbull already is is enough, there are many residents who just want to come home and relax in the homes they pay money for, they do not need to be faced with bright lights and loud noises any more than they already do currently. Thank you.

Kind regards
