Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	I am writing to formally object to the above planning application due to the significant impact it will have on local residents and the environment. Firstly, the proposed floodlighting will cause substantial light pollution, directly affecting homes like ours situated behind the field. The lights will shine through our property, disrupting our family life, particularly in the evenings. Secondly, the extended noise from activities on the pitch until 10 p.m. is deeply concerning. We have a young baby, and the disturbance caused by prolonged noise into late hours will negatively affect their sleep and our household's wellbeing. Additionally, the environmental impact of this development cannot be overlooked. The field borders a designated wildlife area, which could be severely affected by increased artificial lighting and human activity. I urge you to reconsider this application, taking into account the wellbeing of local families and the preservation of our environment.
