Comments Details

Commenter Type:	Neighbour
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	I would like to express my support for this application. As a local resident, I regularly walk past this site while walking my dog and have seen firsthand that the existing buildings are in a poor and derelict condition. I welcome the proposed redevelopment and conversion of the barns into family homes, which I believe will improve the appearance of the area and make a positive use of the site. This is a family-oriented neighbourhood, and I feel that providing additional homes in this location would be beneficial to the local community. The proposal will bring an unused site back into productive use while retaining its rural character, and I am pleased to support the development.

Kind regards
