Reasons for comment:

Comments:	Housing in this area had a community feel and I loved living here and sitting in my garden admiring my views eating lunch with my dog it gave me some peace and comfort after losing one of my sons and now I have no view apart from bricks and mortar that is heaven on the eyes its not a pleasure to see or too enjoy . My garden isn't enjoyable no more neither is eating my lunch enjoying that view .Also the position of my house I had sunlight but im now over shadowed by that building work breaching my right to light and view my garden is a very dull and uncomfortable place to sit and enjoy and my community feel has been disrupted by their attitude towards us in this street they have caused undue stress and upset and the environment is now unsettled . The owners have replaced a lean to with a dwelling with 2 doors and a window and I feel more needs to be done to support council tenants and their living area im sure if a council tenant attempted any of these actions they would have been asked to remove them as they are rules, laws and regulations to be adhered to.
