Reasons for comment:

Comments:	<p>Wrotham rd is already extremely busy at school drop off and pick up times, it will not cope with potentially hundreds of more cars and having the entrance where it is shown on the plans will cause more traffic jams. This will cause more pollution for the local area and especially the junior school which is over the road from proposed development. This coupled with the 2 other proposed developments within close proximity to this one will gridlock local roads.</p> <p>Insufficient school places for hundreds of children moving to the area.</p> <p>Insufficient spaces for extra people at Meopham medical centre.</p> <p>Green belt area that is supposed to stop urban sprawl should not be built on. The loss of green belt area will have a profound affect on wildlife such as badgers, hedgehogs, birds and a rare species of bat which is in the area.</p> <p>Also the character of the village will be lost by building new housing which is not in character with the existing houses within the village.</p>
