Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I wish to object to the building of 725 houses which would completely damage wildlife habitats. The roads are already gridlocked at times and it just isn't sustainable to increase the population in that area regarding doctors already at capacity, hospitals and schools the same. The facilities they say will be built will not for years and the increased population will already be living there. So many houses are for sale that are not sold in the area and cheaper than the ones predicted to be built. There are many sites allocated for building in gravesham that are still sitting empty for years that's how important it is to get housing built! Build affordable housing on a decent bus route nearby the town for those in need not on green belt in an already over crowded area with no way to travel apart from increase in cars.

Kind regards
