Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	This land is grade 2 greenbelt, and does NOT meet the definition of "greybelt". This development would merge Sole Street and Hook Green, which greenbelt is intended to prevent from happening. There is absolutely no way that this development could mitigate the damage that would be caused by the air and light pollution that it would inevitably introduce, irreparably harming the various wildlife in the area. Local infrastructure cannot cope with the increased burden that this would place on the area. GPs are already overwhelmed and unable to take on new patients, and the small roads around the development and surrounding areas are already at capacity and could not safely carry an additional estimated 1,400+ vehicles. These are just some of the more significant issues with the development. There are many, many more.

Kind regards
