Biodiversity net gain

Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 sets out that every planning permission granted for the development of land in England shall be deemed to have been granted subject to the 'biodiversity gain condition' requiring development to achieve a net gain of 10% of biodiversity value.

This is subject to exemptions, an exemption applies in relation to planning permission for a development which is the subject of a householder application, within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order (2015)*.

Applicants for planning permission are required to make a statement as to whether they believe the biodiversity gain condition will apply if permission is granted, please confirm:

- ☒ It is my belief that if permission is granted for the development to which this application relates the biodiversity gain condition would not apply

*A 'householder application' means an application for planning permission for development for an existing dwellinghouse, or development within the curtilage of such a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse which is not an application for change of use or an application to change the number of dwellings in a building.

Details of the pre-application advice received

Meeting at the application site was held on 02 April 2025. Change of use from a dwellinghouse (Class C3) to six bedroom house in multiple occupation (HMO) (Class C4). The erection of a two storey side and part two storey and part single storey rear extension, a new roof incorporating a dormer in the rear roof slope, a front porch, a loft conversion and internal alterations.It would be preferable for the application property to be retained as a single family dwelling. The positive features of the proposal include that the dormer would not overwhelm the rear roof slope and would be set in and down and that the side extension would be less than half the width of the original building. As such, the proposal would provide adequate living conditions for future occupiers. as the proposed development would involve only a relatively small amount of groundworks, then it is considered that there would be no adverse impacts to groundwater or archaeology. It would be preferable for the application property to be retained as a single family dwellinghouse rather being significantly extended and converted to a HMO.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- ☐ Yes
- ☒ No
